

Getting Started

Color before you cut

- Color first! Small pieces of paper are hard to hold and might tear when you are coloring them.
- You can color over black text. No need to color around it.
- Use light colors for backgrounds and large areas.
- Some parts don't need to be colored.

Write

- If the words go on the foldable, write them before you cut or glue.
- If the words go on the notebook, write them after you cut and glue.

Cut

- Don't cut off the black outlines.
- If you accidentally mis-cut your beautifully colored art, fix it with transparent tape.

Glue

- A little glue goes a long way! Tiny dots are all you need.
- Use school glue, not glue sticks. Stick glue loses its stickiness over time.

Define and Match

- Some words get defined but not matched to a picture. For example, there might be five definitions and three pictures.
- Look for clues in the definitions to help you find the matching picture.

Greek & Latin Roots

revoke
invoke convection
provoke equivocal
vociferous advocate
vocal vocabulary

Root: **VOC**
 Meaning: **voice**
 Origin: **Latin**

Mediterranean

 middle land Mediterranean means "middle land."
 Latin Latin

vocabulary

 voice Vocabulary means "the body of words a person knows and uses." It comes from the Latin word **vocabularium**, which meant "list of words."
 Latin

etymology

 facts study Etymology is the study of the facts about the origin and history of words.
 GREEK GREEK

Copy this onto Page 1.

- Greek and Latin were the languages of the ancient Greek and Roman Empires.
- Through colonization, these two languages spread to Africa, Asia, Europe, and the Middle East.
- For centuries, the Greek and Latin languages were spoken throughout the Mediterranean region, the birthplace of modern Western civilization.
